Professional Summary

Ambitious Computer Science student with strong frontend skills and a focus on responsive UI design. Passionate about data structures and improving problem-solving through platforms like LeetCode and Coding Ninjas.

Skills

– **Frontend:** HTML, CSS, JavaScript, Bootstrap, React (learning)
– **Languages:** Java, Python, JavaScript
– **Tools/Technologies/OS:** Git, MongoDB, MySQL, Node.js, Express.js (intermediate), Windows, AI Tools (ChatGPT, DeepSeek, Claude, etc.)
– **DSA Topics:** Sorting, Recursion, Searching, Graphs, Dynamic Programming

Technical Focus

Data Structures and Algorithms

– Solving problems on LeetCode and Coding Ninjas
– Grasp of recursion, sorting, and dynamic programming
– Participates in coding challenges to sharpen problem-solving

Frontend Development

– Built mobile-responsive UIs using HTML, CSS, JavaScript
– Understanding of REST APIs and client-server communication
– Focus on clean, accessible, and user-centered design

Projects

SubSplit – Subscription Sharing Platform   *HTML, CSS, JS, Node.js, Express.js, MongoDB*

– Built a platform for users to create, join, and manage shared subscriptions
– Implemented user auth and plan management with dynamic UI

Spotify Clone   *HTML, CSS, JavaScript*

– Developed a music streaming UI inspired by Spotify
– Focused on playlist logic, playback controls, and responsive layout

Internship

Frontend Developer Intern, Pragati Infocom Pvt. Ltd.   *Remote, June – July 2024*

– Created a responsive online tuition platform using HTML, CSS, JS, Bootstrap
– Integrated APIs for dynamic frontend-backend communication

Education

– **B.Tech CSE**, Jain University, Bangalore   *CGPA: 8.83*
– **12th**, DAV Public School, Patna   *88%*
– **10th**, DAV Public School, Patna   *90%*

Certifications

– Artificial Intelligence Fundamentals – IBM SkillsBuild
– AI Essentials – Google
